

Job Description for Project Manager

Introduction

ASEAN is one of the fastest growing regions in the world, with a population projected to be in excess of 600M by 2030. The construction industry has a critical role in this role as there is a huge need for infrastructure spending to support this growth, especially in core infrastructure such as transport networks and utility infrastructure. Addressing these infrastructural needs will promote trade, growth and social mobility, which are essential components of the region's projected annual growth of 5.2% through 2030.

As **Innovative Builders**, FM sees itself as a key contributor to this unprecedented growth in ASEAN. A huge part of FM's ability to contribute to this wave hinges on seeking and developing talent. Talent that believes in innovation in the way FM does, talent that is dedicated to value-creation for FM's clients, and most of all, talent that believes in building a better ASEAN.

About FM

FM was founded by current Managing Director, Mr. Lim Hong Beng, in 1989. The company received its A1 BCA grading in 2016 and has completed over S\$525M worth of projects across more than 120 projects. FM is internationally recognised for its safety management systems and its innovative approach to building.

FM's vision is to be the trusted civil engineering powerhouse in ASEAN, and FM plans to achieve its vision via three key strategic thrusts :

- FM To provide innovative and eco-friendly solutions
- FM To continuously improve on the competency of employees
- FM To progress its communities with a strong Corporate Social Responsibility program

Responsibilities

The **Project Manager** will lead his/her project team to complete the assigned project. He/She will report to the Project Director. Key responsibilities include :

- FM Leading project team to ensure on-time project delivery according to the planned schedule and within the resources allocated
- FM Developing and implementing effective strategies to ensure project is completed on-time and within budget
- FM Co-ordinating with corporate headquarters on material acquisition, sub-contractor procurement and budgeting
- FM Liaising with clients, consultants, sub-contractors and relevant authorities on design, work progress, quality, safety and schedule
- FM Assisting task force Project Managers in contractual and costing matters
